✓ 11 April Central Eastern Europe unites towards the EU single energy market

- The key electricity players in Austria, Czech Republic, Germany, Hungary, Poland, Slovakia and Slovenia signed a Memorandum of Understanding (MoU) with ACER
- MoU is aimed to couple the countries' markets and expresses the intention of the concerned TSOs and PXs to continue and intensify their cooperation in the Central-Eastern Europe (CEE) region
- The move will contribute to the development of the single EU energy market by favouring price convergence, which fosters competition and therefore leads to a better choice of services and products for consumers

✓ 13 May ACER welcomed the successful coupling of the day-ahead markets of Portugal and Spain with the North-West European region

- Important milestone towards IEM completion
- Just a few months after the launch of the day-ahead market coupling in North-West Europe (which covers 75% of the European power market and 15 countries) and of the synchronised operation of the South-West European day ahead market (Portugal and Spain)
- The electricity markets of Italy and Slovenia are expected to join the coupled markets by the end of 2014

10 June ACER held its 3rd Annual Conference **'REMITage – the age of REMIT'** in Ljubljana

"As EU energy markets continue to integrate, it is important that customers can be confident that the prices they pay are not unduly distorted, but that they reflect the proper interplay of demand and supply"

- EU Energy Commissioner Günther Oettinger

On the same day, ACER published its annual report on activities under REMIT

Welcome to the Notification Platform

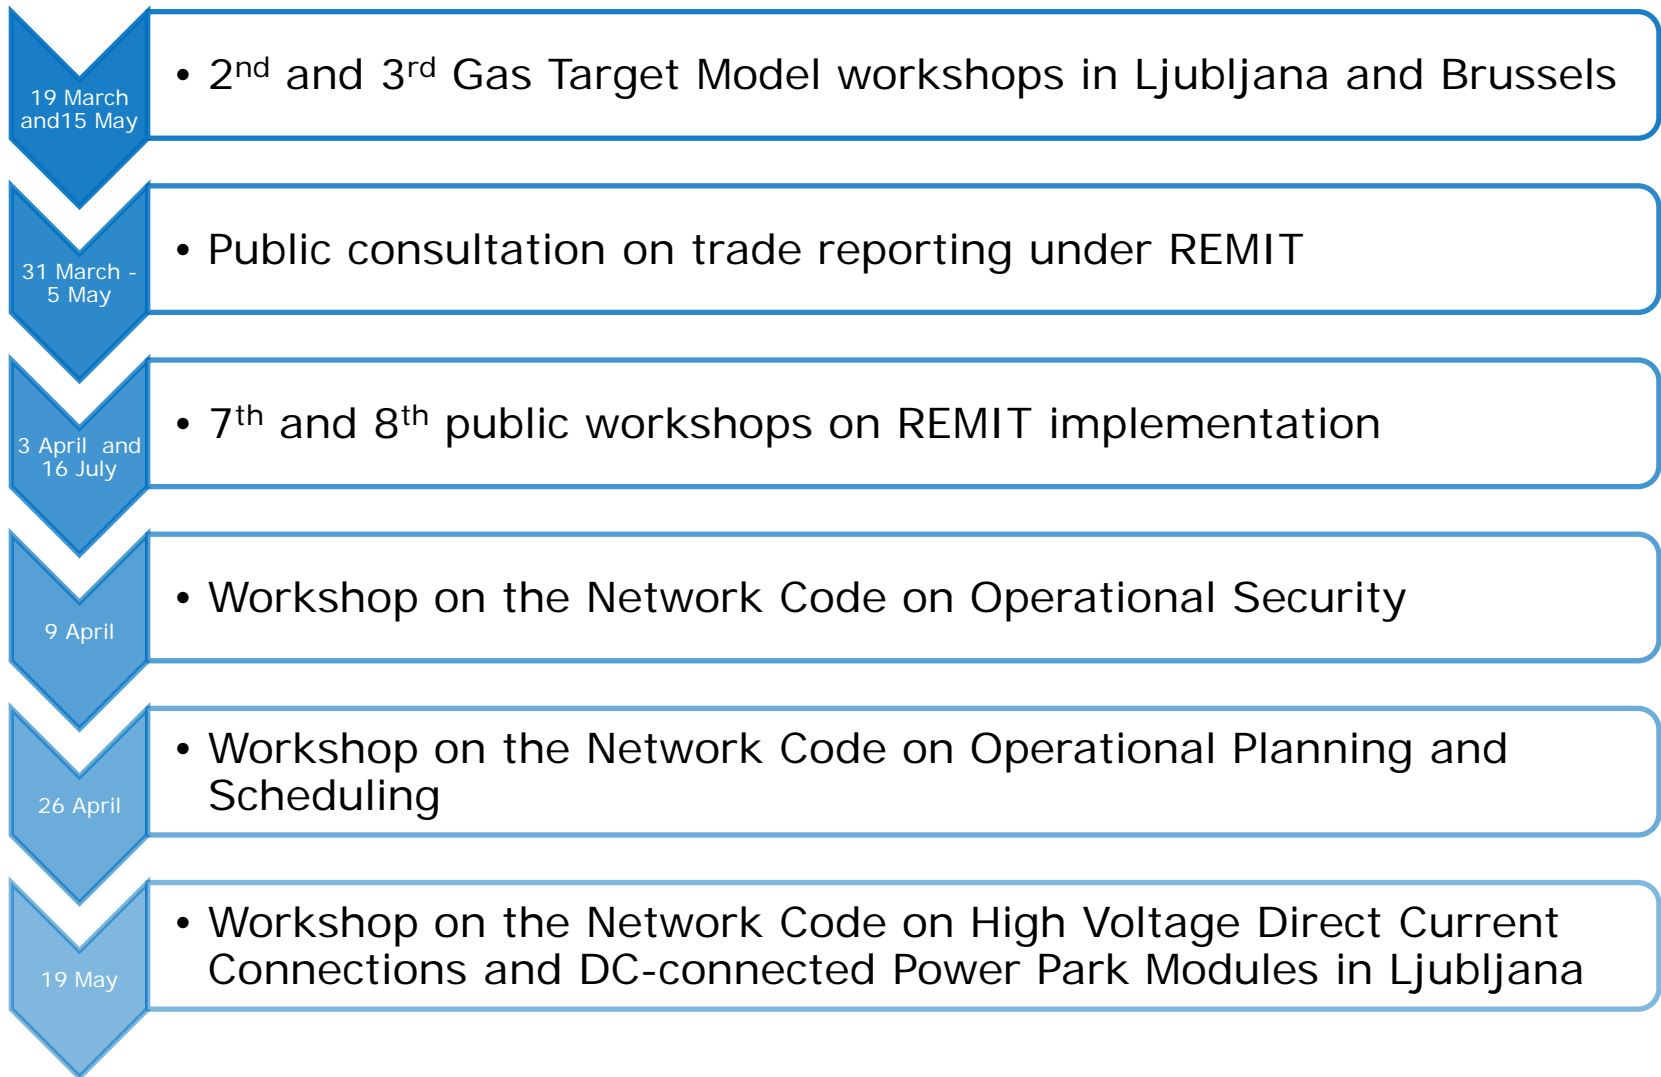

Notification according to Article 3(4)(b) of REMIT

Notification according to Article 4(2) of REMIT

Suspicious Transaction Reporting (STR) according to Article 15 of REMIT

✓ ACER launches an updated REMIT platform for testing

- Market participants can use the platform to notify the Agency and relevant NRAs of delayed disclosure of inside information and the use of the insider trading exemption and persons professionally arranging transactions can report suspicious transactions
- The updated platform is more user friendly and allows user to update the Agency and multiple NRAs at the same time
- The testing period will last until **31 July 2014** and the platform will **go live from 1st August**

ACER Annual Conference: Implementing REMIT can save millions of euros to EU consumers
10-Jan-2014

"As EU energy markets continue to integrate, it is important that customers can be confident that the prices they pay are not unduly inflated, but that they reflect the proper energy of demand and supply" said EU Energy Commissioner Günther Oettinger in his address to the Annual Conference of the EU Agency for the Cooperation of Energy Regulators (ACER), held today in Lisbon.
