1.1. Figure 126.

Version 1	Corrigendum
Figure 126 import price estimates are based on Naftogaz, Platts and ENTSOG data, constructed on ACER calculations.	<i>Russian import prices, EU import prices declared by Naftogaz and VTP hub MA + transmission tariffs</i> series values have been updated. Additionally, a new data series has been added, gauging import prices from VTP hub MA products but using monthly transmission capacity product tariffs instead than yearly product ones.
