This agreement is intended to constitute the basis on which the Regulatory Authorities of the GB-FR BZB will each subsequently make national decisions pursuant to Article 4(9) of Regulation 2016/1719 to approve the GB-BE BSA proposal.

The legal provisions relevant to the submission and approval of the GB-BE BSA, and this Regulatory Authority agreement on the GB-BE BSA, can be found in Articles 3, 4, 51 and 52 of Regulation 2016/1719. They are set out below for reference.

II. The GB-BE TSO proposal

The proposal for the GB-BE BSA was consulted on by the GB-BE TSOs through Nemo Link for one month from 25 May 2018 to 25 June 2018, in line with Article 51 and Article 6 of Regulation 2016/1719.³ The GB-BE BSA proposal was received by the last Regulatory Authority on 25 July 2018.

The proposal includes proposed timescales for its implementation, in line with Article 4(8) of Regulation 2016/1719. The GB-BE BSA constitutes an Annex to the HAR elaborated and approved in accordance with Article 51 of Regulation 2016/1719.

Article 4(9) of Regulation 2016/1719, requires Regulatory Authorities of the GB-BE BZB to consult, closely cooperate and coordinate with each other in order to reach an agreement, and make a decision within six months following receipt of submission by the last Regulatory Authority concerned. A decision is therefore required by each relevant Regulatory Authority by 25 January 2019 for the GB-BE BSA.

The GB-BE BSA has been developed to specify bidding zone border requirements, submitted as an annex to the HAR, ahead of Nemo Link's planned go-live in Q1 of 2019.

III. GB and BE Regulatory Authorities' position

Based on the proposal, and on the additional clarifications provided by the TSOs, the GB and BE Regulatory Authorities have reached agreement that the proposed GB-BE BSA is consistent with the objectives of Regulation 2016/1719.

The Regulatory Authorities of the GB-BE BZB acknowledge the amendment of Article 48 of the HAR, through the GB-BE BSA, to reflect the transmission losses over Nemo Link with respect to the compensation in the case of curtailment that shall be paid to holders of Long Term Transmission Rights. In addition, the GB-BE BSA states that the cap on compensation payable in the case of curtailment shall be calculated on a monthly basis as set out in Article 59 of the HAR. The Regulatory Authorities of the GB-BE BZB agree to approve these amendments.

The timescale for the implementation of the provisions, defined in Article 2 of the GB-BE BSA, corresponds with the first explicit long term product auctions, which will be offered from April 2019.

Going forward GB and BE NRAs welcome harmonisation across the bidding zone border, moving towards progressive harmonisation across the Capacity Calculation Region (CCR) is desired.

IV. Conclusions

The Regulatory Authorities of GB and BE have assessed, consulted and closely cooperated and coordinated to reach the agreement that the GB-BE BSA meets the requirements of Regulation 2016/1719 and as such can be approved.

The relevant Regulatory Authorities of GB and BE must therefore make their decision on the basis of this agreement in accordance with the six months deadline as set out in Regulation 2016/1719 by 25 January 2019. Following the relevant decisions by the Regulatory Authorities of Great Britain and Belgium Bidding Zone Border, the GB-BE TSOs will be required to publish the GB-BE BSA on the internet in line with Article 4(13) Regulation 2016/1719 and must meet the implementation deadline required by Section 2 of the GB-BE BSA.
