Question 1
Question 1 What additional information/analysis would you like to see included in the NW Specifics and/or Supply&Demand chapter?
What additional information/analysis would you like to see included in the NW Specifics
What additional information/analysis would you like to see included in the NW Specifics
What additional information/analysis would you like to see included in the NW Specifics
What additional information/analysis would you like to see included in the NW Specifics

Question 2
For the first time this GRIP has completed an "in depth" response to the Investment Gaps and Supply dependency assessment found with the TYNDP for the NW region.
Are there any other areas where you think such an approach should be taken?
Question 3
This GRIP will incorporate additional information on infrastructure projects to the TYNDP from TSO and third party projects. What other information would you like to see?
Question 4
Are there any other areas/topics not addressed in the GRIP that should be included?

Question 5
Do you think that the NW GRIP enhances transparency on projects?
If not, please provide your reasoning.
Question 6
Which chapter, do you think, will be of most interest to you and why?
Question 7
Do you have any further comments?
